

CBDC

Central Bank Digital Currency creates unprecedented possibilities for tyranny once cash is eliminated.

This will allow the government to be in control of every aspect of your life by:

- monitoring every financial transaction you make,
- limiting what you can spend,
- deleting your funds at will,
- connecting your "money" to your Digital ID, which will be connected to your vaccine status and social credit score.

No cash means the tooth fairy doesn't visit, babysitters must have a digital wallet, tipping will be tracked and no more offering a buck or two to strangers.

Did you know ...

- the WHO (**World Health Organization**) can declare a pandemic at any time?
- that when the WHO declares a pandemic, the laws of all the nations are nullified, and the entire world is submitted to the so-called 'constitution' of the WHO?
- **the WHO is owned and controlled by private individuals who are not democratically elected by anyone?**
- the WHO & UN have created a worldwide system that allows them to use the excuse of "*health emergencies of international concern*" to **rob humanity of all rights and freedoms and implement a totalitarian regime.**
